

Avidian Database Deduplication

Avidian Database Deduplication uses a proprietary Data Management Tool that queries your Prophet or Avid CRM contact and company data to identify and remove duplicates

USD \$1,995

Benefits

- Eliminates Confusion
- Ensures Data Accuracy
- Enhances Productivity
- *Streamlines Workflow*

Smart Merge

- Notes are retained from all records.
- Blank fields are filled in with data from populated fields
- Other fields are merged based on selected Master Record

Scope of Work

Includes Deduplication up to 50,000 Contacts or 10,000 Companies

Additional scope cost \$175 per hour.

Permission for Avidian to access the customer account is required for data analysis and data deduplication
